USER'S MANUAL

Install

To install the anime information system, users will have to click the installer.

After the installation, the installed program should appear on the desktop.

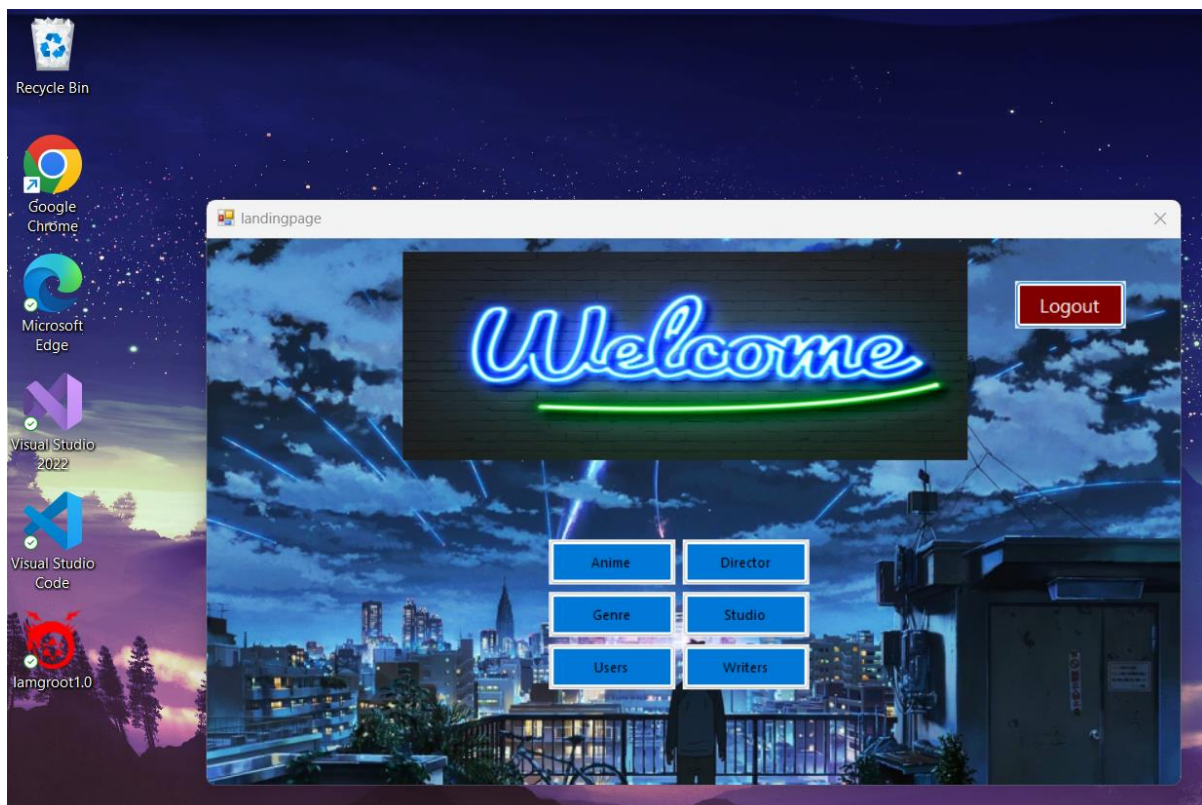

Open the program by double clicking on it. Once opened, it should appear like this:

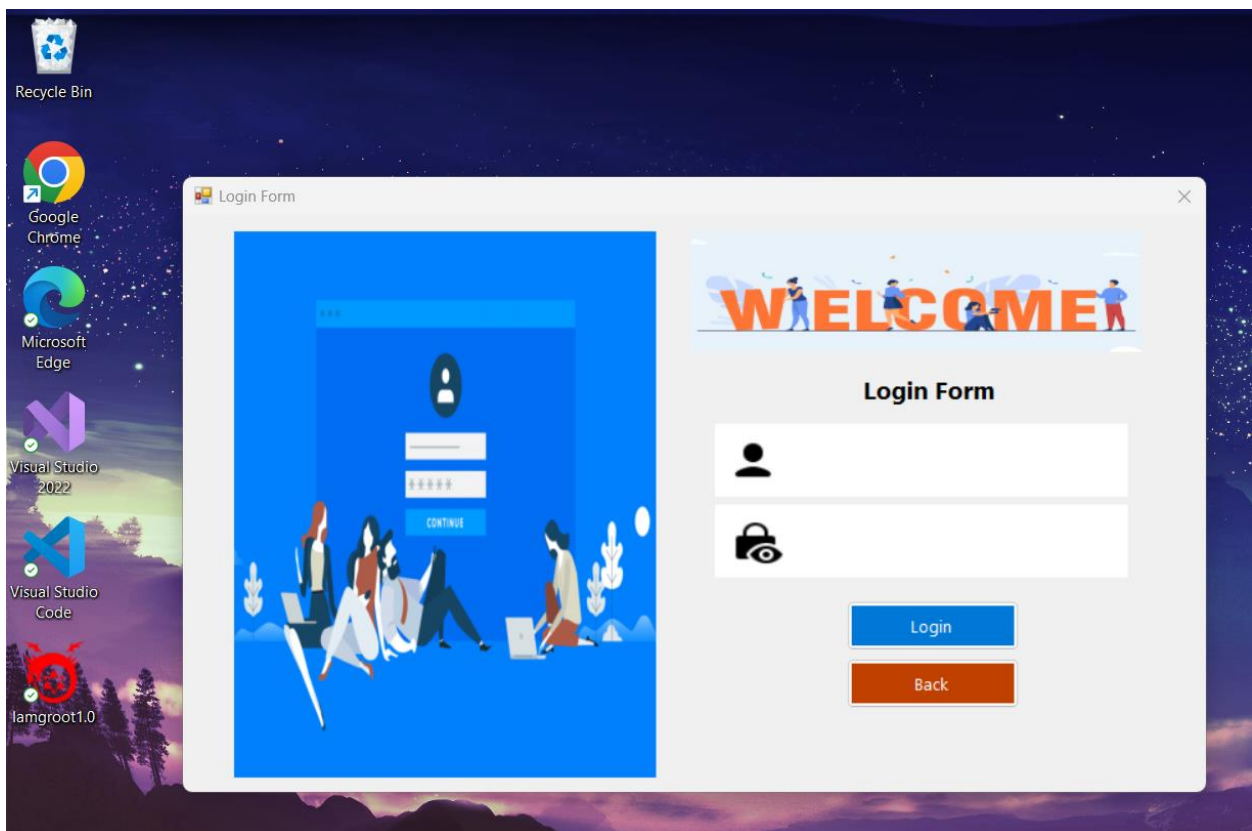

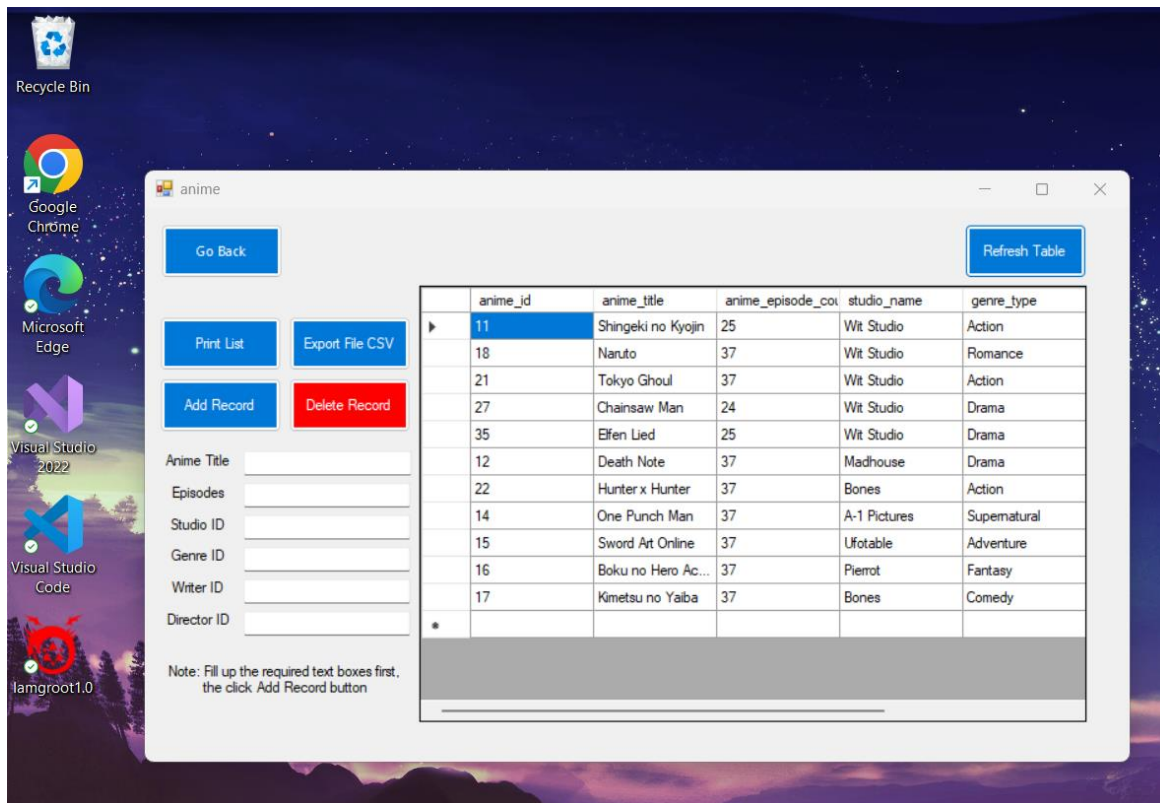

Users will then need to login to the system, credentials will be provided and can be updated through the system.
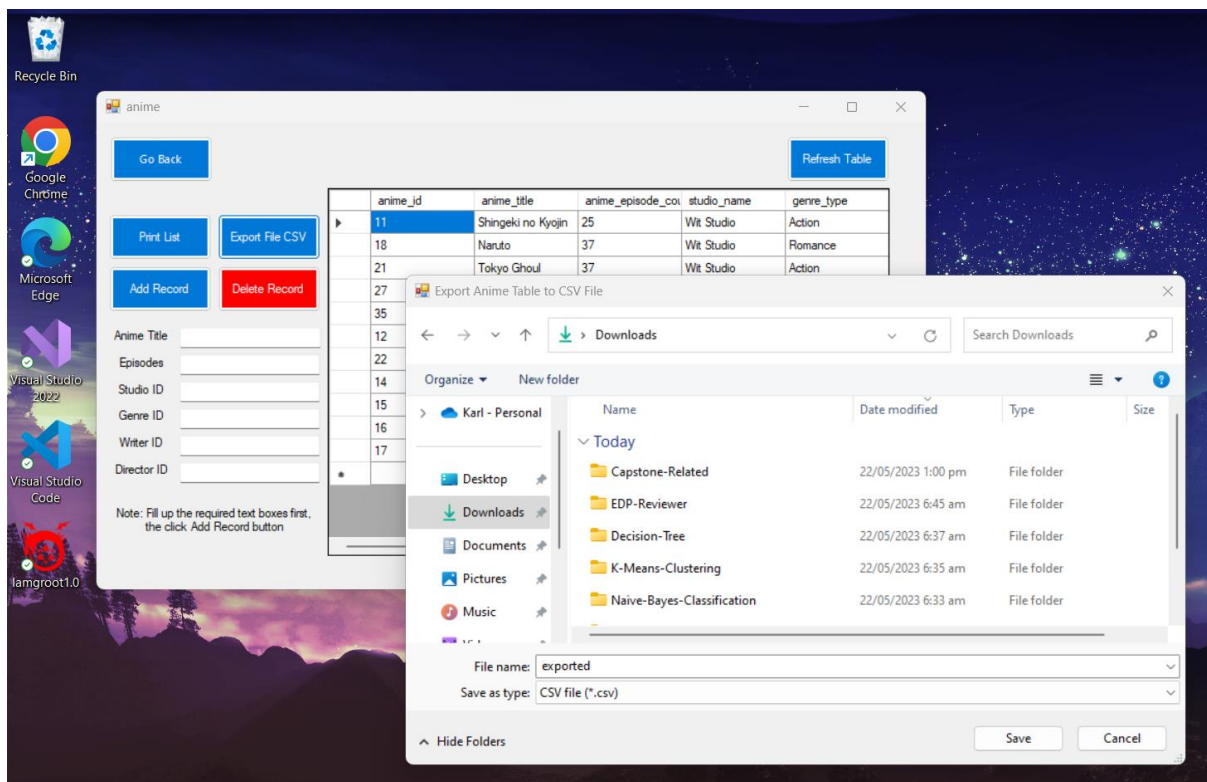

By clicking ok, the user shall be redirected to the landing page of the information system.

Users can now interact with the system and perform various operations.
